TO THE MAGISTRATES COURT OF AUSTRALIA.

My name is Edwin Leslie John Lewis. I am the Defendent in a case that I will be defending through another 'Court Appearence', this time without a solicitor. re - Puryer and Co., outstanding bill of 4,701.69 dollars. With this letter I have also sent you documentation of solicitors fees and other material that will support my case.

I am the son of James and June Lewis and the brother of Walter, Jean, Scott and Heath. I come from a very highly respected and admired family.

I am the father of 3 beautiul sons, Justin James, Clinton and Thomas Edwin Lewis.

Through the 'court process', in which I have been involved, I have seen 'it all', after telling my ex.wife on the 19/3/97 that Justin had made a 'disclosure' about her father to Kylie, my brother Heath's wife that' poppy had touched him and that it hurt'. Helen screamed at me 4 times, 'why wasn't I [meaning her] told'. I asked Helen was her father a 'PAEDOPHILE', and she replied, 'its feasible'.

Helen's father is known to my children as 'poppy'.

I WAS STUNNED.

I have put my case with the 'Honourable' Matt Foley Attorney General'.

On the 20/3/97 Helen went to see a 'barrister and solicitor' and they told her if she didn't 'do a runner' Family Services would come and take the children off her.

Helen knew Police action was pending so she 'fled with the boy's and her mother on the 21/3/97. [refer to domestic violence transcript page 14.]

The 'Family Law Court System' has failed in every way to offer my children a 'safe life'.

Judicile Registrar Smith made 'ORDERS' on the 6/5/97, that Helens father Allan Carty 'never be left alone with my children unsupervised'.

My latest solicitor, Puryer and Co., have taken me for the' Biggest Ride' of all times.

I met Robert Puryer's wife, around Christmas 98, where I hired a castle from her business, toys to rent.

As I was unhappy with previous solicitors she advised me her husband was a solicitor and that he would advise me with a second opinion to get a better result through the 'court process'.

ANNEXURE. 4.

his concerns[whether they be unfounded or not] about the Childrens safety. We are sure that your client would similarly wish her concerns be respected by him. Therefore our client is prepared to discharge the undertaking with respect to Mr Carty provided that our client's rights to speak with the Children about such issues as 'good and bad touching' and and keeping secrets about such things from adults that they trust such as your client or our client. point 28 In this context, our client proposes that he raise with the children such issues as are contained in the booklet 'Touches and Feelings' but we stress that such discussions by our client with the Children would in no way refer to your clients father or, for that matter, any specific person. In this context, you will appreciate that in this present day and age where such issues are far better known and dealt with than they were, say, five, ten[and beyond] years ago, it is important that Children be made aware of 'stranger danger' and on the understanding as above, that our client will refer to no specific person. He should be able to address these issues with them. We enclose a copy of 'Touches and Feelings' for your reference. In this context, we also understand there is a video available on subject of 'secrets'which again our client would like to raise with the Children on the same basis as is referred to above.
